John D. Chesak, P.E.

The June issue of **Structural Engineer Magazine** highlighted the **Top 20 Structural Engineering Firms** in the nation. In their article they “*shine the spotlight on the proven missions, attitudes, and programs of the best firms to work for in the country.*”

Among all of the entrants, four exceptional firms topped their list. Baldrige & Associates Structural Engineering, Inc. was among this elite group. The article noted, “*Baldrige & Associates Structural Engineering, Inc.’s success proves that quality staff and management can compete easily with those of larger firms to achieve excellence in a working environment.*”

**Baldrige & Associates Structural Engineering, Inc.**

This is only one of several recognitions that our company has recently received.

- On the local front, BASE has been recognized again in Pacific Business News’ “Hawaii’s Fastest 50.” The award is meant to recognize the achievements of Hawaii’s small business owners.
- The American Institute of Steel Construction has begun an advertising campaign recognizing the nation’s leading Architects and Engineers who strive for innovation and creativity. Among the first designers recognized is our president, Steven M. Baldrige, P.E., S.E. You will find their ad featuring Steve in upcoming editions of Architectural Record and Engineering News Record magazines.

*Baldrige & Associates Structural Engineering, Inc. recognizes that in service based companies, such as consulting engineering firms, the most valued asset is its employees. Their cultivation and reward ultimately benefits our clients.*
