

BASE Line

November/December 2004

Steven M. Baldrige, P.E., S.E.

Another exciting year for Baldrige and Associates Structural Engineering, Inc. has come to a close. Below is a select list of 2004 highlights that would not have been possible without the support of our clients and our outstanding team of dedicated BASE employees:

Todd P. Dwight, S.E.

Frank K. Humay, Ph.D., S.E.

- We gained **National Recognition** for Structural Engineering and Anti-Terrorism / Force Protection design. Our accolades include:

Structural Engineering Magazine: “Best Structural Engineering Firms” 2003 & 2004, two years in a row!

Chad H. Nakamoto, S.E.

National Council of Structural Engineers Associations: “2004 Outstanding Project Award” in recognition of exceptional merit for the innovative design of the Oklahoma Hall – Bachelor Enlisted Quarters.

Evan A. Mizue, S.E.

Rebecca A. Lee, P.E.

- Our reputation has led to contracts with **National Technical Societies** to further the knowledge of practicing engineers. These prominent endeavors include the following:

Daniel R. Popp

Federal Emergency Management Agency: BASE is managing a \$400,000 educational study called “Development of Design and Construction Guidance for Special Facilities for Vertical Evacuation from Tsunami”.

Tracy M. Duke

Fe O. Rodillas

BASE has authored - Concrete Reinforcing Steel Institute – Structural Bulletin Series: “Reinforced Concrete and Secure Buildings: Progressive Collapse”.

Marcial J. Sialana

Woo Sung Chang

Aubrey S. Renteria

- A responsive engineering firm requires equal attention to strong technical expertise and fair business practices. Our **Business Leadership** continues to be competitive in Hawaii:

John D. Chesak, P.E.

Pacific Business News: “Best in Business”

Pacific Business News: “Fastest 50”

- Success has made BASE even more committed to their primary responsibility of providing outstanding structural design and innovative economical optimization on **Hawaii’s Premier Projects**. BASE provided engineering services on the top three Commercial Construction projects in 2004:

Pacific Command Headquarters – Structural Engineer

WalMart Superblock Development – Structural Engineer

John A. Burns School of Medicine – Value Engineering

BASE looks forward to 2005, our 10 year anniversary, and wishes you a prosperous and safe New Year.
