This September will mark the fifth anniversary of the terrorist attacks on our nation in New York and Washington D.C. In response to that event, BASE has intensified its efforts in incorporating and sharing Anti-Terrorism & Force Protection design expertise for the military, our clients, and the community.

■ Publication of *Prevention of Progressive Collapse in Multistory Concrete Buildings* in conjunction with renowned building code expert S.K. Ghosh and the International Code Council. This work will share knowledge with design professionals throughout the world.

■ The **American Institute of Steel Construction** invited Steven Baldridge to speak in their North American Steel Construction Conference about *Pacific Command Headquarters: Incorporating Anti-Terrorism & Force Protection into Building Design*.

■ Publication of the Concrete Reinforcing Steel Institute's Technical Bulletin *Reinforced Concrete and Secure Buildings: Progressive Collapse*.

■ **National Structural Design Excellence Awards:** BASE has been recognized for several of its cutting edge protective design in buildings some of these awards include:

▷ Concrete Reinforcing Steel Institute:  
"2006 *Design & Construction Excellence Award*" based upon exemplary accomplishment in "high security design" for the **Oklahoma Hall – Bachelor Enlisted Quarters**

▷ National Council of Structural Engineering Associations:  
"2005 *Outstanding Project Award*" in recognition of the **Nimitz-MacArthur Pacific Command Center**

▷ National Council of Structural Engineering Associations:  
"2004 *Outstanding Project Award*" in recognition of exceptional merit for the innovative design of the **Oklahoma Hall – Bachelor Enlisted Quarters**

*In memory of the victims of terrorist violence throughout the world.*
